

Interim CRO Bridge Program

Don't let a vacant CRO seat cost you a year.

Prepared by: Warren Zenna, Founder & CEO
warren@thecrocollective.com | thecrocollective.com

When a CRO leaves, the damage starts immediately.

The seat sits empty 4–6 months while the search runs. Revenue operations drift, the team loses direction, and the incoming CRO inherits chaos instead of a functioning system.

REVENUE DRIFT

Pipeline discipline erodes. Forecasting goes dark. The number between CROs becomes the CEO's problem — and nobody's mandate.

The cost that quietly compounds the most.

LEADERSHIP VACUUM

Three departments revert to silos. VPs protect turf. Cross-functional alignment dissolves in weeks, not months.

Hired to build. Evaluated to sell. Fired for neither.

SUCCESSOR SETUP

The incoming CRO inherits no baseline, no documentation, no architecture. Day 1 becomes month 3 of discovery.

A cold mess, not a clean handoff.

62% of companies see growth go flat or decline the year following a CRO transition. The gap isn't just empty — it's actively destructive.

We put a real CRO in the seat inside ~2 weeks, hold the number through the gap, and hand your next CRO a working system.

- 1 90-Day CRO-Grade Operating Coverage**
A CRO in the seat, full-time-equivalent, owning forecast, pipeline, deal-desk, and coaching under a signed mandate.
- 2 Week-2 Revenue Architecture Assessment (RARA)**
10-dimension diagnostic: archetype, weighted score, compound-gap map. Immediate clarity on what's broken.
- 3 Revenue Architecture Blueprint**
The documented target-state system that transfers instead of evaporating when the interim leaves.
- 4 Target-CRO Profile Spec**
Lowest-scoring × highest-weighted dimensions define exactly who your permanent CRO must be.
- 5 Day-80 Re-Score + Knowledge Transfer**
Identical RARA re-scored (the delta) + living KT doc + mandatory walkthrough + 30-60-90 for the incoming CRO.
- 6 Sponsor Cadence + Board Reporting**
Biweekly operating-partner sync, monthly written board update, open-decisions log. Full governance.
- 7 Pre-Priced Extension Option**
Search-milestone-gated, so you never renegotiate under pressure. The exit is built into the engagement.

| WHY THIS WORKS

Every claim is countersignable. No revenue promises. No manufactured scarcity.

Continuity-of-Coverage Guarantee

If your interim becomes unavailable for any reason, The Collective restores coverage and the engagement clock **pauses, never resets**. You are never billed for an empty seat.

Matched in 5–10 Business Days

Operator matched-and-briefed in **5–10 business days**, stabilizing the engine in weeks 1–2 — against a retained search that runs 5–6 months.

Process and Coverage, Not Outcomes

We guarantee the process, the artifacts, and the exit. Revenue is multi-causal — we underwrite what we control, which is everything except the market.

× **No like-for-like-swap promise.** Naming a capacity we don't yet have would be dishonest.

× **No revenue-outcome guarantee.** Revenue is multi-causal. We guarantee the system, not the number.

Ready to bridge the gap?

90-day engagement · Scoped by operational complexity and company stage
